Wrap Up

April is seeing consistent pricing with all areas of the sheep market. Saleyard numbers are rising but demand is keeping market rates from decreasing, with the top price of carcass rates beating OTH pricing by up to 90c/kg. AuctionsPlus sales dominated by ewes both scanned in lamb and unjoined.

Plenty of young sheep also being offered providing a great opportunity for producers to buy in and boost numbers. AuctionsPlus this week had a price rise in the goat market with females topping out at \$350 - in contrast to this, there are still buying opportunities available.

Wrap Up

Similar trends to the sheep market. Big numbers within saleyards and AuctionsPlus sales, while not affecting price. Roma sale rose by almost 3,000 head and saw a dearer market with a yarding dominated by steers, also being 15c dearer. Feedlots are still trying to catch up on numbers booked in before Easter and were held back due to rain. With some good local response from the recent rain and seeing good grass growth, TopX are currently seeking to purchase store cows and steers.
